Alex Rivera

Backend engineer who builds reliable APIs and the platforms they run on

Austin, TX | alex.rivera@example.com | +1 555 0100 | github.com/alexrivera-example

Experience

Northwind Logistics Austin, TX

Software Engineer *Jun 2024 – Present*

- Built a shipment-tracking API in Python and PostgreSQL that serves 2M requests a day
- Cut p95 latency of the orders service 40% by adding a Redis read-through cache
- Led the migration of 12 services from VMs to Kubernetes on AWS with zero downtime
- Contributed to the on-call rotation and wrote 15 runbooks for incident response

Contoso Health Remote

Software Engineering Intern *May 2023 – Aug 2023*

- Designed a TypeScript service that syncs patient appointment data between two systems
- Wrote integration tests that raised coverage of the scheduling module from 55% to 85%

Projects

Ledgerline | *Go*

- Built an open-source double-entry ledger library in Go with 300 GitHub stars

Technical Skills

Python, TypeScript, Go, PostgreSQL, Redis, Docker, Kubernetes, AWS, React, Terraform

Education

State University Austin, TX

B.S. Computer Science *Aug 2020 – May 2024*
